*Author note:* Due to the large number of issues addressed in *Literacy Essentials* and text limits, no attempt has been made at a comprehensive research review. Many of these references came my way through reliable Twitter sites, blogs, newspapers, and educational journals. Whenever possible, accompanying URLs are provided. Use those URLs to selectively access articles, blogs, research, and related links to further your professional learning. Reading and discussing current research and practices with your colleagues is one excellent way to improve upon and reflect on pertinent educational issues and practices.
